### **COURSE OUTLINE**

## (1) GENERAL

SCHOOL	School of Engi	chool of Engineering				
ACADEMIC UNIT	Department o	ment of Financial and Management Engineering				
LEVEL OF STUDIES	Postgraduate	duate				
COURSE CODE	II-7	<b>SEMESTER</b> B				
COURSE TITLE	Supply Chain	ply Chain Management				
if credits are awarded for separate components of the course, e.g. lectures, laboratory exercises, etc. If the credits are awarded for the whole of the course, give the weekly teaching hours and the total credits			WEEKLY TEACHING HOURS	CREDITS		
Credits are awarded for the whole of the course			3	10		
		tion of teaching and cribed in detail at (d).				
general b special b speciali know	ackground, ackground, sed general aledge, skills evelopment	ce Obligatory				
PREREQUISITI	COURSES: No					
LANGUAGE OF INSTRUCTION and EXAMINATIONS:		Greek				
IS THE COURSE OF ERASMUS COURSE WE	STUDENTS					

# (2) LEARNING OUTCOMES

#### **Learning outcomes**

The course learning outcomes, specific knowledge, skills and competences of an appropriate level, which the students will acquire with the successful completion of the course are described.

Consult Appendix A

- Description of the level of learning outcomes for each qualifications cycle, according to the Qualifications Framework of the European Higher Education Area
- Descriptors for Levels 6, 7 & 8 of the European Qualifications Framework for Lifelong Learning and Appendix B
- Guidelines for writing Learning Outcomes

By completing this module, each student will be able to:

- Understand the fundamental principles in the management of supply chains with emphasis on planning and execution processes
- Understand the importance of outsourcing and how to select 3<sup>rd</sup> party logistics providers
- Understand the basic principles for the procurement and warehousing of raw materials as well as the methodologies for stock control

- o Select the most suitable mean for transporting and delivering of goods
- o Evaluate and make use of emerging technologies for managing information flow in supply chain networks

### **General Competences**

Taking into consideration the general competences that the degree-holder must acquire (as these appear in the Diploma Supplement and appear below), at which of the following does the course aim?

Search for, analysis and synthesis of data and information, with the use of the necessary technology

Adapting to new situations Decision-making

Working independently Team work

Working in an international environment

Working in an interdisciplinary environment

Production of new research ideas

Project planning and management Respect for difference and multiculturalism Respect for the natural environment

Showing social, professional and ethical responsibility and

sensitivity to gender issues Criticism and self-criticism

Production of free, creative and inductive thinking

Others...

- **Decision making**
- Team work
- Search for, analysis and synthesis of data
- Application of optimization methods and techniques
- Choose and assess of operations tools for supply chain operations
- Production of free, creative and inductive thinking

## (3) SYLLABUS

Lecture	Lecture Title			
1	Fundamentals of Supply Chains & Customer Service			
2	Demand Forecasting methods			
3	Inventory Control			
4	Procurement & Purchasing			
5	Warehousing and packaging			
6	Freight Transportation			
7	Routing & Scheduling			
8	Telematics in logistics applications			
9	Radio Frequency Identification (RFID)			

## (4) TEACHING and LEARNING METHODS - EVALUATION

DEL 11/5DV	Distance learning		
DELIVERY	Distance learning		
Face-to-face, Distance learning, etc. USE OF INFORMATION AND	Use of ICT in teaching and communication with students		
	Ose of 101 in teaching and communication with students		
COMMUNICATIONS TECHNOLOGY  Use of ICT in teaching, laboratory education,			
communication with students			
TEACHING METHODS	Activity	Semester workload	
The manner and methods of teaching are	Lectures	30	
described in detail.	Self-study	60	
Lectures, seminars, laboratory practice,	Case studies	57	
fieldwork, study and analysis of bibliography, tutorials, placements, clinical practice, art		50	
workshop, interactive teaching, educational	Team project	50	
visits, project, essay writing, artistic creativity,	Non-directed study		
etc.	Final exam	3	
	Course total	250	
The student's study hours for each learning			
The student's study hours for each learning activity are given as well as the hours of non- directed study according to the principles of the
